ABOUT ELECTRICAL AND ELECTRONICS ENGINEERING (EEE) Department

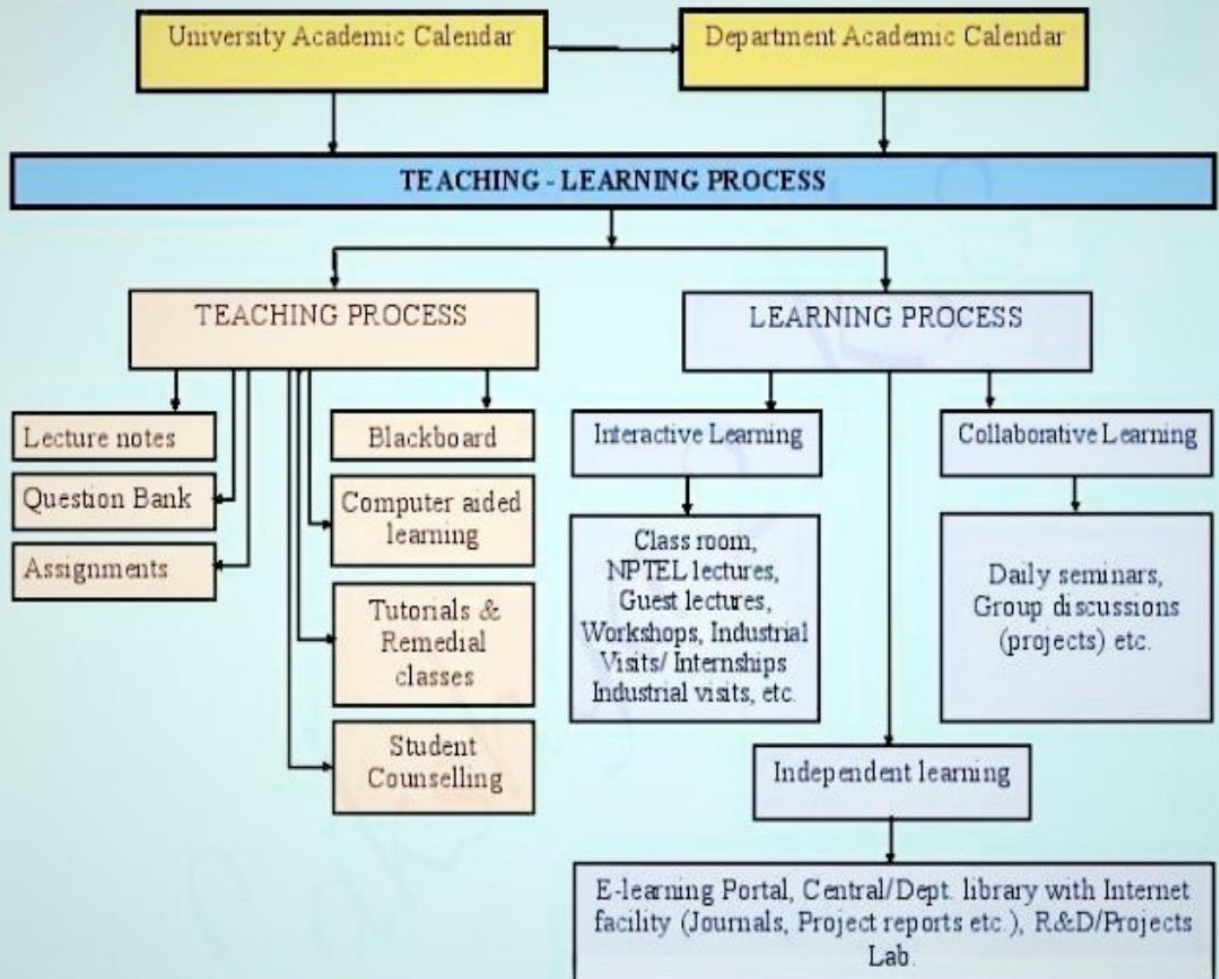

**WE ARE THE POWER OF THE WORLD
Let the peace be amplified World be rectified**

The Department of Electrical and Electronics Engineering started in the year 2001, with an intake of 120 students. The Department is accredited by NAAC. The department is an intrinsic part of Bharat Institute of Engineering and Technology, and is the core stream ever. The department has set global standards in academics to promote Quality technical education.

To meet challenges of globalization with the state of art equipment's laboratories and Conducive environment exists in the department. The Department of Electrical and Electronics Engineering is organizing various training programs to enhance the technical skills of the student. A Purposeful Research and Development atmosphere is established to fetch the research Activities by the Students and Faculty.

Since inception, the department has well experienced and committed faculty who continuously strives for the benefit of the students, their progressive development and equally balances both ethical values as well as personality development of the student community. Faculty of the department continuously encourages the students to get involved in industrial visits, internships, industry interactions, social activities, Government intitiations etc.....

MESSAGES

SRI CH.VENU GOPAL REDDY
(Honorable Chairman Bharat Institutions)

I am happy to know that the EEE Dept Magazine "ELEKTRA -2k22".

I am also glad to see that students have brought out the magazine fully managed by them under the guidance of fest coordinators. At the centre of every creative endeavor lies the admiration to express and to explore. The EEE Dept Magazine provides a platform to budding writers and artists express their feelings and in the process grooming them in the subtleties of emotions.

As India moves progressively towards becoming a 'knowledge economy' it becomes increasingly important that Professionals/Engineers focus on advancement of skills. Gone are the days when a B.Tech degree from the university with a traditional prescribed curriculum was sufficient to get a job. In the present day knowledge economy and fast changing technical contours, university curriculum coupled with re-added programs & certified Add on course are need of the hour to bridge the gap between industry and the academia. To succeed in an era of globalization, rapid changes and fierce competition, engineers must therefore possess a diversity of skills and must meet the market's requirements. Bharat College is committed to provide all the facilities for developing budding engineers through quality education in engineering & technology along with supporting practical implications. With the inception of EDC & IIC, we have moved a step further to inculcate entrepreneurial abilities among the students so as to generate more employment opportunities along with economic development of the Nation.

Dear students, set your goals high. Dream, Aspire, commit and gain new heights, script new chapter of success. If you do so, the world would be yours. I am confident that you will continue to grab opportunities and bring laurels to yourselves and to the institute.

My best wishes to all the students of BIET !!!

Message from the Principal-BIET

Greeting to one and all

It is a matter of great pleasure that department of Electrical and Electronics Engineering of Bharat Institute and engineering is publishing a annual report magazine" ELEKTRA 2K22"

I am happy that Electrical and Electronics Engineering is taking care of all aspects of the developments of students to shape them into empowered citizen of future. The annual report highlights achievement and future plan of the departments, which reflects the vision darity of department.

I am delighted to see that this magazine is showing some of the best creative endeavourers of the students and have a great role in promoting the feeling of electrical technology.

My best wishes for enlighten efforts and success.

Regrads.

Dr.G.Muni Reddy

Principal, BIET

Mr. Yawar Abbas Khan
(Admin In-charge EEE Dept.)

The vision of the department is to impart education of the highest order, producing technically competent and socially responsible global engineers. This is being achieved through the endeavors of highly motivated and well qualified faculty using excellent infrastructure, industry institution interface, R&D activities latest technology and tools.

Advanced knowledge and industry job oriented training and research activities are being imparted to the students enabling them to acquire all the skills that are essential to become successful engineers, managers or entrepreneurs. The students are enthusiastic and well-motivated.

They are currently organizing an interesting and innovative technical fest entitled "ELEKTRA-2k22". I wish them success in this endeavor

Dr. Kashinath.H
(Academic In-charge EEE Department)

Students Associations' aims may involve practice and propagation of a certain professional hobby or cause, or to promote professional development. They play an important role in college life by bringing together like-minded students to engage in activities the association seeks to promote.

It is always an exciting moment in life when students' associations celebrate such occasions. In case of ELEKTRA-2k22, its activity planning, execution and the outcome always look astounding.

I strongly believe that the regular activities undertaken by "ELEKTRA-2k22" will definitely inculcate students to be emotionally intelligent and Self-reliant.

I congratulate the team "ELEKTRA-2k22" on their flourishing and relentless journey

S.M.Raw
Chief Of Placements

I congratulate all EEE students for organizing "ELEKTRA2022" EEE fest.

Placement cell is committed to build carrier of students in their respective domain. Our team strives hard in bringing companies to campus across spectra to map their talent.

There has been upward swing in terms of number of placements over the years and students are being placed in best of the best companies in core and non-core sectors with a reasonably good package.

In order to excel students need to master their skill sets to make their future happen. The future is bright for all of you as more and more job opportunities are being created by private and public sector undertakings.

WE ARE THERE TO PROVIDE WINGS, TO MAKE YOU FLY!!! ALL THE BEST AND WISH THE EVENT A GRAND SUCCESS!!!

RESEARCH FACILITIES

Department of EEE is actively engaging in research areas ranging from practical implementation to theoretical investigations. The main activity is to gear up B.Tech & M.Tech students under JNTUH curriculum through course and laboratory works in R&D direction. Department of EEE is subdivided into three areas like academic, development & research work and all these are being combined to achieve appropriate goals with the help of administrative support.

EEE DEPARTMENT R & D AREAS

The Development & Research group in consultation with the academic work schedule has broken-up the activities along with 10 specific subareas. These are supported by 9 laboratories.

PROFESSIONAL SOCIETIES

With an aim to emphasize value based education and to provide aid in terms of research and development, the department of EEE is making special efforts by being a part of professional societies in Institute of Engineering(INDIA) and Institute of Electrical and Electronics Engineering.

- We are being the part of the Institute of Engineering(INDIA) since 2014-2015.
- We are being the part of the ISTE since 2017-18 i.e.21 faculty members and 100 students are being part of it.
- Two faculty members are being AMIE.
- Six faculty members are being IETE.
- One faculty member is being ISRO.
- Two faculty members and 31 students are being apart of IE society.
- Four faculty members are existing and in the IEEE.

How does "Kola Veri" help you?

- When I went to Manipal Institute of Technology (MIT), Manipal to pursue my M.Tech Engineering Management (HRM) program, I did part-time job there (Placement Co-ordinator at MIT Manipal – stipend of Rs.1,000 pm)
- My Kola Veri (Fire & Passion) became "Recruitment" in the corporate world. Later, it got expanded into "Overall HR".
 - Mali (Manager in Philips): "For Jessy, Recruitment is his first wife"
- You will handle difficult assignments (hiring Software Architects for Philips)
- You will put all your efforts to be the best in your field
 - APAC Recruitment Manager with Philips Electronics HK Ltd, based in Hong Kong. The first Indian to do so in the history of Philips, which is more than 100 years old.
- You will do impossible things.
 - I had sent my resume to Bill Gates (Microsoft) / Michael Dell (Dell) / Jeff Immelt (GE) while working in Philips HK (during 2004-05)
 - In 3 days of sending my resume to Michael Dell, received a call from the APAC HR Head of Dell from Singapore

FACULTY INNOVATIONS

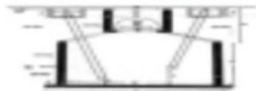

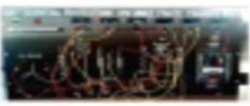

Contributions of BIET EEE Department Faculty towards inculcating innovative means in Teaching and Learning are clearly elucidated both in our Department Records and on the Institute Website for peer review and critique. Our work is open to be enhanced or reproduced. Some of our Inclusive ways are attractive presentations, interesting videos and mini projects, practice programs, contents beyond syllabus, assignment questions and quizzes, tutorial sessions especially for problematic and programming subjects, results analysis through interactive feedback, so forth. Proofs of the stated documented are comprehensively documented.

To improve the level of understanding in students, the following innovative teaching approaches are undertaken by the institution.

- ICT Supported Learning
- Short Presentations
- Group Projects
- Role Play

ICT Supported Learning

Information and Communication Technology or ICTs allow users to participate in a rapidly changing world in which work and other activities are increasingly transformed by access to varied and developing technologies. The Indian Information Technology and industry accounts for a 5.9% of the country's GDP and export earnings as of 2009, while providing employment to a significant number of its tertiary sector workforce. More than 2.3 million people are employed in the sector either directly or indirectly, making it one of the biggest job creators in India and a mainstay of the national economy.

PROJECT DAY EVENT-18-06-2022

BHARAT INSTITUTE OF ENGINEERING AND TECHNOLOGY

NAAC Accredited; NBA Accredited for UG Programmes: CSE, ECE, EEE & ME
Approved by AICTE, New Delhi; Affiliated to JNTUH

Department of Electrical and Electronics Engineering

PROJECT DAY

18TH JUNE, 2022

Chief Guest

Mr. Madan Mohan Goud

Founder and CEO, HIEE Hyderabad.

**Venue: NA Block Ground Floor &
Solar Park**

Timing: 10 AM To 3:10 PM

Faculty Co-ordinator

Mr. K. Srinivas Rao, Assistant Professor
Dr. Sukanth. T, Assistant Professor

Dr. G. Muni Reddy
Convener & College Admin I/C

Shri. Ch. Venu Gopal Reddy
Chief Patron

**Power helps us to be more powerful
in our powered field...It is not only a
study topic to us...but also is a term
of our daily life because we carry the
power in our blood.
WE ARE ELECTRICAL
ENGINEERS.**

— Sukanya Ghosh(Matani)

STUDENT ACTIVITIES

Dear all,

Thanks for your patience.

Congratulations to the winners of Project Competition/Exhibition 2022 conducted by the IEEE PES chapter of Vardhaman College of Engineering. Herewith we are sending you the Prize Money of Rs.1000 worth of Amazon Gift Voucher.

Second Place: Modeling and Applications of 1.2 KW wind-solar off grid hybrid energy systems

1. Sangi Reddy Manisha
2. Shagufta Nazneen
3. Revati Venu Gopal
4. Vemi Reddy Narashima Reddy

Mentor: Mr. Srinivasa Rao, Assistant Professor, EEE

Bharat Institute of Engineering and Technology, Mangalpally-501510 Ibrahimpatnam, Rangareddy Dist, Hyderabad.

Certificate of Participation

This is to certify that *Mr. P. Sandeep, Mr. N. Tharun Sai, Mr. R. Praveen Naik, Ms. B. Akhila Reddy* from *Bharat Institute of Engineering and Technology* has presented the project titled *Design and Implementation of 0.6KW Single Axis Solar Tracking System* in the **Project Competition / Exhibition** held on **April 22, 2022**, Organized by **IEEE Power & Energy Society Student Chapter, Vardhaman College of Engineering, Hyderabad, Telangana.**

ARTS & CRAFTS

Ignorance was easier! - A Poem by Vivek Shaw.

Walking in the shadows, I was looking for the rains,
The rains of sunshine and some relief to my pains,
My dog was panting, I can see no possible gain,
A locket in my pocket of the shirt with my past stains;
I am searching for my light, I am searching in my night,
In the darkest tide of the oceanic night,
Th shadows are growing, the darkness rising high,
The lesser the light, the lesser my hope to seek what is mine;
I am afraid now where I've come,
the people here look so different than me,
I've seen a rainbow in the sky without any colours in it,
If my life were a casino board i would chose to spin in it;
What is life basically unknown,
The speculations just put to know the real unknown,
Just muddy the water and you'll find it deep,
Small insects will be born in the corners of the steep;
This itself is the life we chose,
As "Spirits of God" in literature we pose,
The demons are striking back in this world,
The angels are driving them out of this pearl;
The pearl of life; the pearl coloured in "Blue",
Out of water and grains we follow up as true,
Life is a simulation inside this pearl,
Rigidly forced out of love in this holy great hurt;
You are not alone, you are not behind;
Striving in the pain searching for your own peace in mind;
We all Heal, We all Deal with this at a point of time;
The time that makes you 'lost' to uncover your own spine;
Out of bindings, out of rage;
You will fly away from this cage;
The cage of your external persona;
I was unaware of this until I met Jonah;
Jonah answered to all my Quiers;
responding too fast as an archer fires;
by saying that 'ignorance is easier',
this thing makes him feel pity-er;
Jonah said-
" Ignorance was easier,
Instead of liberating out from the bindings,
Studying all over again the same cave findings,
Living all of your life and called as 'rebellion',
Ignorance was easier,
Instead of working on your purpose,
which you realised after the pain,
the power that helps you in gain,
you wanted to loose it in vain,
Because ignorance was easier,
the society helped you bind down,
by the friends and families to land down,
to not grow or fulfill something,
to not step out of the cave to study life but just old findings,
Ignorance was easier,
to even know your true Purpose,
and gaining beautiful wings of a butterfly,
you still were choosing to be that weak insect you were in the past,
to live with the insects in their world which isn't neat and vast,
Ignorance was easier!
and it will always will be,
a fake smile on your face like thomas shelby,
Who is here to choose,
What they want to become out of,
the weak insect binded down to the strong beautiful insect in the ground!
the ground where the fittest one survives;
the future grows and the lost past dives;
the shine of the sun in the eyes that thrives;
Where we all grow out of pain and start our strivel
Go, Go and Grow till it becomes your sky,
Open up your wings to make it greater and high,
the higher the height, the greater you will be known for your might,
because the greater will be the darkness of fear, the shiner it will be your light of strive "
(Above are the lines from Jonah)
After conversing with Jonah I learnt,
to never put off the fire which I burnt,
to grow and let grow the people of this world,
to spread some positivity and love in this pearl;
To help this civilization, to develop this pearl,
to spread some light out of dark that I've faced,
I've seen the dark and it's not a fright to me,
I can play night in day and the day is night to me.

WHAT NEXT

The most asked question that is asked by everyone to every individual including them self's. The answer to this depends on the thought of the moment and this particular thing annoys and motivates accordingly. While graduating this question starts hitting us badly, because you know that you are most probably gone become a bread earner. That gets to the most difficult task *getting recruited* that can help you around for every single thing.

I have mentioned a difficult task earlier, *Is it that difficult?* If it is then **WHY?** After spending years studying the thing you are not industry ready, this can be one of the answer for our question. Now the new question arises, *Then why have we spent this time?* We spend this time just gaining knowledge and haven't looked at what is going on. That's because we thought going through books is the only way of getting knowledge. This needs to be understood by the intuitions and the students. To overcome this students should start exploring the domain they are interested in and intuitions should have an organizations linked to them for the courses they are offering.

Special note to the readers that I'm not an expert or the person that has experienced much. Be independent and try to take up things by your self's, taking help will make you dependent person. Taking advice and having a good mentor is over all a good thing, but in the end you should be the decision maker.

~MOHD ABDUL HAFEEZ AHMED

Andhere mein jo de tumhe roshni ka sahara Kya
apne dekha hai mehtab sa koi pyara Kabhi dikhe
yeh pura toh kabhi aadha Chupe yeh jab bhi
badal mein toh uff kya lagta hai nazara
